

Titan Renovator

10m³ Bucket and Blade, in one!

Features:-

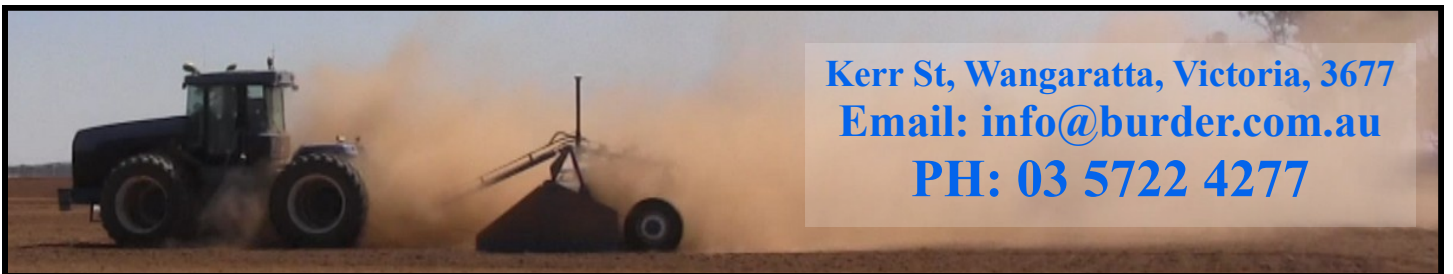

- 24ft wide cutting edge
- 7m³ to 10m³ carrying capacity
- 7m³ pushing capability
- Stress relieving chains
- Bounce suppression plates
- Legal on-road transport width

Applications:-

- Cutting
- Filling
- Contour
- Levelling

A 24ft scraper bucket and blade in one, proven to be one of the most effective methods of earth moving and land levelling. The Renovator's design allows for material to be carried as well as pushed in front of the cutting edge. The tilting mechanism on the rear axle allows for contouring, with the system able to be connected to a laser levelling system. Bounce suppression plates beneath the bucket allow for a fast, level final pass.

*"Simple design, ability to perform multiple tasks.
The perfect low capital investment for land forming"*
