

BURDER BALE FEEDER

Market leading, high strength, rust resistant, 12000LB, zinc plated chain.

Replaceable rust resistant, zinc plated feed-out bars. Zinc plated tray with feed-out extensions, to feed beyond the wheels.

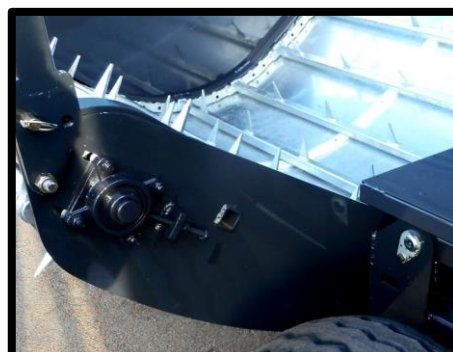

Large 1900mm absolute wheel width with unique independent arm suspension and flotation tyres.

Protected rear mounted bi-directional high torque, 400cc motor with high torque drive coupler.

2 pack epoxy paint, in a variety of tractor paint colours.

Chain tension adjustment and low maintenance bearings.

Zinc plating	<ul style="list-style-type: none"> • Rust resistance to the major parts of the machine, ensuring they will last. • A clean tough finish, able to with stand the punishment that the feeder has been designed for.
Independent rear suspension	<ul style="list-style-type: none"> • Smoother ride when trailing • Reduces stress through the frame from shock loadings, increasing the lifetime of the feeder.
Bi- directional, high torque Motor	<ul style="list-style-type: none"> • Versatility, with feeding out possible on either side of the feeder. • High torque motor, able to feed out even the sloppiest bales.
Large track width	<ul style="list-style-type: none"> • Combined with the extremely low centre of gravity, allows piece of mind when venturing onto undulating terrain.
2 pack epoxy paint	<ul style="list-style-type: none"> • The toughest of paint finishes, able to withstand more punishment than normal paint. • A better quality finish, keeping the machine looking its best for longer.
Feed out extensions	<ul style="list-style-type: none"> • Enabling the feeder to throw the shredded bale out beyond the track of the wheels, ensuring the cleanest feed for stock.

**REDUCE FEED
WASTAGE**

EASY TO USE

**FEED ANY SIZED
BALE**
